TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java

Frontend: HTML, CSS, ReactJS, Redux Toolkit, NextJS, Tailwind, Shadcn

Backend: NodeJS, ExpressJS, REST API, MongoDB, PostgreSQL(SQL)

Tools: VS Code, Cursor, Git, GitHub, Postman

EXPERIENCE

Junior Software Developer

Aug. 2024 – Jan. 2025

Enpointe IO — Live Site

Remote, India

- Collaborated in building a comprehensive clinic management system with features such as appointment scheduling, a dynamic form builder, payment integration, automated Zoom link creation, and prescription management.
- Implemented role-based access control, enabling secure permissions for doctors, patients, and administrators.
- Optimized the appointment logging API, reducing its load time by 35%, improving the overall system performance.

Headstarter AI

July 2024 – Sep. 2024

Software Engineering Fellow

Remote, USA

- Completed a 7-week Software Engineering Fellowship focused on building and launching AI applications.
- Built 5 AI products in 5 weeks as part of the program, emphasizing rapid prototyping and user acquisition.
- Collaborating with a team of four to develop 'Pitcher AI,' an AI-powered tool designed to transform product reviews into compelling social media pitches, as part of a final project.

Bunch Infotech

Nov 2023 – Dec 2023

Web Developer Intern

Remote, India

- Developed responsive UI components and forms for the Scottish Central School website.
- Integrated features like admission inquiry, gallery, and media sections to enhance user experience.
- Collaborated with stakeholders to ensure branding consistency and optimized performance.

PROJECTS

ImageAlchemy | 🌐 [Live](#) | 🐙 [Code](#) | *TypeScript, NextJS, Tailwind, MongoDB, Stripe, Cloudinary AI, Zod, Clerk*

- Built a SaaS app with AI features and a payments and credits system using Next.js 14, Cloudinary AI.
- It provides various services such as image restoration, object removal, object recoloring, and background removal.
- Deployed it live on Vercel, which provides seamless CI/CD integration with GitHub.

ByteBliss | 🌐 [Live](#) | 🐙 [Code](#) | *JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB, MVC*

- Developed a feature-rich blog application, demonstrating proficiency in both frontend and backend technologies.
- Implemented user authentication, CRUD operations for blog posts, rich text editing, and image uploading functionalities.
- Employed best practices in code optimization and deployment, utilizing tools such as Slugify for SEO-friendly URLs, CORS for secure API communication, and PM2 for efficient process management.

EXTRACURRICULAR

- Lead as a Core member of an IEEE student chapter, I was responsible for conducting events that cultivated the coding culture of the college.
- Orchestrated 2 competitions in domains like Coding, Debate which impacted over 400+ students.
- Solved 500+ problems based on Data Structure and Algorithms on Leetcode and GFG.
- Contributed to Hacktoberfest 2022 with 4+ merged PRs, earning swag rewards. Continued contributions in GSSoc and SSoC for web projects in 2023.

EDUCATION

Dr. A.P.J. Abdul Kalam Technical University

Ghaziabad, U.P.

Bachelor of Technology in Computer Science: CGPA: 7.3/10

Aug. 2020 – July 2024

- **Relevant Coursework:** Agile Development, Data Structures and Algorithms, Object-Oriented Programming, Operating Systems, Database Management Systems, Computer Networking.
